Cautionary Notes

Forecasts and other forward-looking statements included in this document are based on information currently available and certain assumptions that the Company deems reasonable.

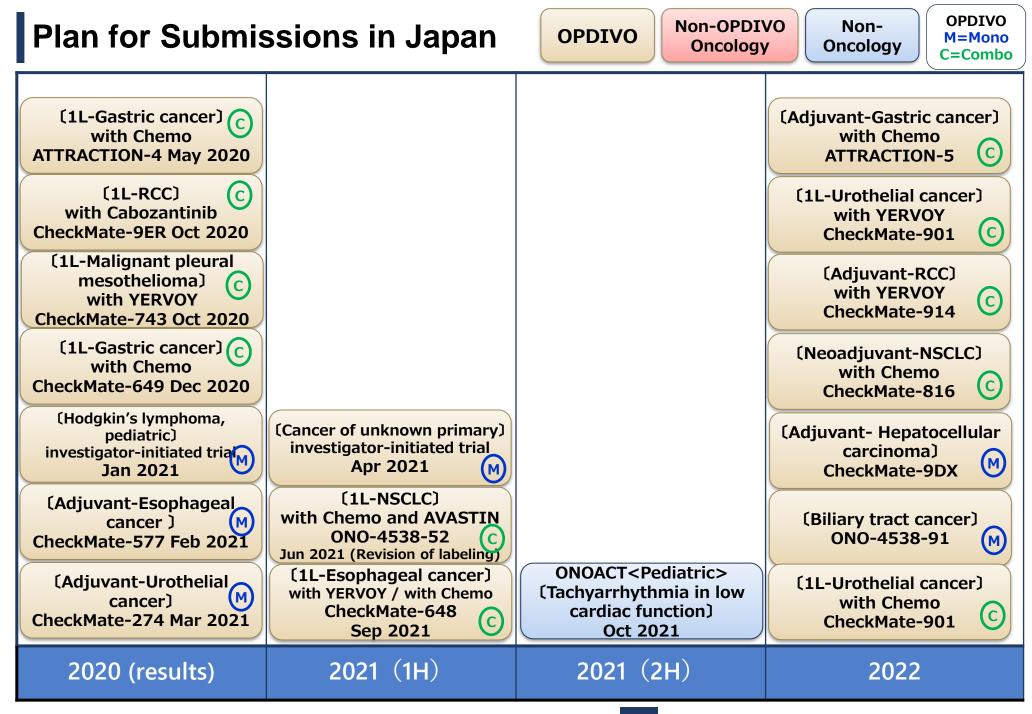

Actual performance and other results may differ significantly due to various factors. Such factors include, but are not limited to:

- (*i*) failures in new product development
- (*ii*) changes in general economic conditions due to reform of medical insurance system
- (*iii*) failures in obtaining the expected results due to effects of competing products or generic drugs
- (*iv*) infringements of the Company's intellectual property rights by third parties
- (*v*) stagnation of product supply from the delay in production due to natural disasters, fires and so on
- (vi) onset of new side effect of post-licensure medical product

and, (vii) currency exchange rate fluctuations and interest rate trend.

Information about pharmaceutical products (including products currently in development) included in this document is not intended to constitute an advertisement of medical advice.
